Re: Application of BellSouth Telecommunications, Inc. to Provide In-Region  
InterLATA Services Pursuant to Section 271 of the Telecommunications Act of  
1996  
Docket No. 2001-209-C

Dear Mr. Terreni:

BellSouth Telecommunications, Inc., d/b/a AT&T South Carolina ("AT&T South Carolina") is filing a Proposed Data Notification Report for the September 2009 data month. The report will be discussed at the next scheduled industry conference call.

Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink that reads "Patrick W. Turner". The signature is written in a cursive, flowing style.

Patrick W. Turner

## **PROPOSED SEPTEMBER 2009 DATA NOTIFICATION**

BellSouth Telecommunications, Inc., d/b/a AT&T South Carolina (“AT&T”) is considering making the changes described in this document to generate results for the September 2009 data month. Results for the September 2009 data month will be posted as follows:

Preliminary results	October 20, 2009
Final results	October 30, 2009

AT&T provides Data Notifications each month in compliance with the SQM Plan. The Plan specifies that when AT&T proposes making any changes to the methods by which performance data is calculated, it must provide written notice. The notice is provided on the first business day of the month before the data month in which the change will be made. The Plan also requires AT&T to provide notification if it is considering making changes to the method of calculating data for the following month.

ENCORE Releases may affect monthly data flows from the source systems (e.g., LASR, LESOG, etc.) that PMAP uses to calculate measurements. AT&T will make changes to PMAP to ensure that data continues to be correctly captured as ENCORE Releases are implemented.

System releases may affect monthly data flows from the source systems that PMAP uses to calculate measurements. AT&T will make changes to PMAP to ensure that data continues to be correctly captured as system changes are implemented.

### **Ordering Measurements**

- (1) *Affected Measures:* RI; all states except for Florida  
O-8 Reject Interval [RI]

*Description of Change:* Currently, on the aggregate report AT&T includes the Local Interconnection Trunk volume in both the Non-Mechanized and the Local Interconnection Trunk disaggregations for the Reject Interval. The 12-month report for this measure is correct. AT&T proposes to modify the code in accordance with the business rules so that the Local Interconnection Trunk volume is only reported in that disaggregation for the Reject Interval. This proposed change was item number one on the filed Preliminary September 2009 Data Notification. (RQ9448)

*Impact of Change:* For the May 2009 data-month in South Carolina, the CLEC metric for the Non-Mechanized disaggregation would change from 95.65% to 98.51%. Due to the impact of this change, re-posting is not necessary.

- (2) *Affected Measures:* RI, FOCC  
O-8 Reject Interval [RI]  
O-11 Firm Order Confirmation and Reject Response Completeness [FOCC]

*Description of Change:* Currently, the aggregate report includes AT&T owned company records within the CLEC data for the Reject Interval and Firm Order Confirmation and Reject Response Completeness measures. The 12-month reports for these measures are correct. AT&T proposes to modify the code to exclude the AT&T owned company records from the CLEC data for the Reject Interval and Firm Order Confirmation and Reject Response Completeness measures. This proposed change was item number two on the filed Preliminary September 2009 Data Notification. (RQ9755)

*Impact of Change:*

- For the May 2009 data-month in Florida, the CLEC metric for this change has no impact to reported metric results for RI.
- For the May 2009 data-month in Florida, the CLEC metric for this change has no impact to reported metric results for the FOCC Fully-Mechanized disaggregation.
- For the May 2009 data-month in Florida, the CLEC metric for this change has no impact to reported metric results for the FOCC Non-Mechanized disaggregation.
- For the May 2009 data-month in Florida, the CLEC metric for this change has no impact to reported metric results for the FOCC Partially-Mechanized disaggregation.
- For the May 2009 data-month in Florida, the CLEC metric for the FOCC Local Interconnection Trunk disaggregation would change from 99.08% to 99.05%.

Due to the impact of this change, re-posting is not necessary.

**Provisioning Measurements**

- (3) *Affected Measures:* CCI  
P-7 Coordinated Customer Conversions – Hot Cut Duration [CCI]

*Description of Change:* Currently, AT&T coding logic only recognizes upper case lettering for the “Missed Function Code” inputted to identify CLEC caused delays. AT&T proposes to modify the code to recognize both upper and lower case lettering for the “Missed Function Code” to exclude those transactions from the reported CCI measure results. This proposed change was item number three on the filed Preliminary September 2009 Data Notification. (RQ10155)

*Impact of Change:* For the March 2009 data month in Florida, the metric would change from 88.62% to 89.34%. Due to the impact of this change, re-posting is not necessary.
